This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

WHIGS OF THE UNITED STATES!

THE compiler respectfully submits this little Manual as a first attempt to disseminate, in the cheapest and most eligible form for extensive circulation, a few of the more important and interesting facts touching the great political struggle of the times. If this effort shall be approved, it will be followed up hereafter in the same spirit, but with different materials. The primary purpose of this is to exhibit in the clearest manner the great accessions to the Whig cause which the past year has witnessed, and the succession of brilliant triumphs it has rapidly achieved. To effect this object, nothing further than a fair comparison of the votes of the last and present years has been found necessary. If the Whig party is not now 'THE DEMOCRACY OF NUMBERS,' then there is no truth in figures, or reliance on official returns. Let this glorious truth be every where proclaimed, until it shall be firmly imprinted on the public mind, and the effect will be most salutary.

The tables of popular votes have been compiled with care from the best attainable sources, and may in most cases be implicitly relied on. Some imperfections were unavoidable, especially in the returns of the more recent elections. These are in all cases acknowledged on the face of the statement. The labor required has been much greater than would be imagined, and errors in transcribing are possible; but the general correctness and fairness of our exhibit will not be questioned.

Whigs of New York—of the North—of the Union! If our humble effort shall seem worthy of your countenance, we ask your aid in disseminating this little messenger through every town and village of the country. We ask this with a confidence that the good cause will be strengthened by your compliance, and that we shall not solicit in vain.

New York, November 1, 1837.

THE AMERICAN WHIG PARTY

Was formed in the spring of 1834, by a union, so far as their common objects and views seemed imperatively to dictate, of all those who condemned the most arbitrary and unconstitutional Removal of the Deposites or Public Treasure by General Jackson, from the one safe, advantageous, and proper depository designated by law, into forty or fifty State Banks. That reckless and most indefensible measure—which lies at the foundation of all our subsequent commercial, financial, and general calamities—necessarily gave rise to an intense political excitement, and to a new organization of parties, in which was partially merged all former distinctions. The Whig party comprised,

1. Most of those who, under the name of National Republicans, had previously been known as supporters of Adams and Clay, and advocates of 'the American System.'

2. Most of those who, acting in defence of what they deemed the assailed or threatened rights of the States, had been stigmatized as Nullifiers, or the less virulent, State Rights men, who were thrown into a position of armed neutrality towards the Administration by the doctrines of the Proclamation of 1832 against South Carolina.

3. A majority of those before known as Anti-Masons.

4. Many who had up to that time been known as Jackson men, but who united in condemning the high-handed conduct of the Executive, the immolation of Duane, and the subserviency of Taney.

5. Numbers who had not before taken any part in politics; but who were now awakened from their apathy by the palpable usurpations of the Executive, and the imminent peril of our whole fabric of constitutional liberty and national prosperity.

Such was the origin and constitution of the Whig party. The name was chosen as expressing briefly and pointedly the great object and basis of the party—Resistance to usurpation, misrule, and despotism.'

'The Whig party is neither *the* nor *a* Bank party. Most of its members are indeed friendly to honestly conducted banks, and a well regulated Banking System. A majority of them probably deem a National Bank, or some other national issue, or regulation of the issue, of paper money, highly desirable to ensure a sound currency, equalize exchanges, and restore prosperity. There are Whigs, however, who deny all this, as well as Van Buren men who concur in it. The subject of Banking affords such a scope for contrariety of opinions, that scarcely a dozen persons, who are thoroughly acquainted with it, can be found to agree exactly on every point. Whigs differ among themselves, as do members of other parties. But whoever asserts that the Whigs as a party are wedded to the present system of Banking, or that they are defenders of abuses in Banking or any thing else, is a reckless calumniator.'

The Whig party has never really comprised less than one half the qualified electors of the United States. In the first year of its existence, without a national organization, or any definite plan of action, it polled 650,000 votes—exceeding by thousands the votes of its adversaries. In the late Presidential Election, it polled 730,203 votes, exclusive of South Carolina and Michigan. The elections of 1837 have already demonstrated that the Whigs are THE DEMOCRACY OF NUMBERS by 50,000 majority.

'The Whigs will continue to contend for the Reform of existing abuses in Government, and the dismissal of incompetent public servants from the trusts which they have abused; the Retrenchment of the expenses of the Government, which have swelled from twelve millions per annum under Adams, to thirty-two millions under Jackson, and still more under Van Buren; the limitation of the powers of the Executive, now practically despotic; and the restoration of the era of good feeling, of contentment, of constitutional liberty, and of national prosperity.' Freemen of America! these are our principles and objects—are they also yours? If Yea, evince it at the polls!

HUMORS OF THE TIMES. (MAINLY SELECTED FROM THE LOUISVILLE JOURNAL.)

☞ The Globe says, that, although the times are apparently gloomy, "the country abounds in all the necessaries and luxuries of life." Blair pokes his head into the kitchen, and mistaking that for the country, thinks the whole land is filled with roast beef and drippings. We once heard of a similar case:—A traveller at a Pennsylvania hotel rose from his bed one night to examine the weather; but, instead of looking out upon the sky, thrust his head through the glass window of a cupboard—"Landlord!" cried the astonished man, "this is very singular weather; the night is as dark as Egypt, *and smells of cheese.*"

☞ The Globe says, "No paper should be issued, without an adequate metallic basis." Indeed! The ten millions of Government shin-plasters are to be issued on the basis of a Treasury which has just failed for nine millions, and is in debt besides over head and ears. This may be an "enlarged" basis, but what it is "adequate" to passes our comprehension.

☞ Why did Mr. Van Buren, in the opening of his Message, depart from the 'footsteps of his illustrious predecessor,' and omit the 'thanks to Almighty God' for the 'flourishing condition in which Providence had kept the nation?' Was he of opinion that the chief management of our affairs had been in other hands of late?

☞ Mr. Van Buren assumes that, by the present mode of collecting and disbursing the public revenue, it "passes *twice* through the hands of Executive officers." Quite a mistake. It invariably passes into them, but not always *out of* them.

☞ Swift, in his 'Tale of a Tub,' represents Lord Peter as ready to break the heads of his companions for not acknowledging a dry penny loaf to be a good quarter of mutton. To avoid all peril of this kind, we acknowledge that Treasury shinplasters are the very brightest and purest of gold and silver.

☞ The Times, a Van Buren journal, admits that 50,000 persons are out of employment in this city. What shall be done? We recommend a cure on the Homœopathic principle. Turn out 'the Author of the Letter to Sherrod Williams,' and his 50,000 office-holders, and things will come right again.

☞ Mr. Van Buren says in his Message: "The people are prone to expect too much of the Government." He bids fair to cure them of that propensity.

☞ Office-seeking is the great vice of the times. It is expected to cease altogether when the office-holders are made Pet Banks, and entrusted with all the hard money in the country.

☞ *Solemn Truth.*—'Sir,' said the Hon. John P. King, a Jackson and Van Buren Senator from Georgia, in his Speech on the Sub-Treasury Bill, '*more gray hairs have grown upon our republic during the last eight years than for forty preceding!*'

Harison's majority.....3684.

[The Van Buren party have gained comparatively in some counties, owing to the operation of a local question—that of constitutional reform; the small counties, all Whig, being supposed averse to giving a much larger representation to Baltimore, Frederick, &c., in the State Legislature. The Whigs, however, have still 50 to 33 in the Assembly, the entire Senate, the Governor—in short, every thing, including a heavy popular majority. Where the National question overruled, as in Baltimore city, there is a gain to the Whig side.]

SOUTH CAROLINA.

[In the Election of 1836, this State voted for Willie P. Mangum of North Carolina for President, and John Tyler of Virginia for Vice-President. There is no Van Buren party here. Not a single vote was given for Van Buren in the Legislature—not a voice was raised for him in the public journals. The clear Whig majority in the State is probably not less than 30,000.]

[The regular State Election in Michigan takes place on the first Monday of November. The returns above for 1837 are of a Special Election for Member of Congress in July. The result of the regular Elcction is very doubtful.

☞These remarks apply substantially to ARKANSAS, where the regular Election is held in October. That of 1837 is not yet fully heard from.]

Van Buren majority in 1836, 26,403. Whig maj. last elect'n, **112,581.**
Whig gain, **138,984.**

[NOTE.—The Whig majorities in Indiana and Kentucky for 1837, appear too high by this table, owing to the fact that no Van Buren candidates were run in many Congressional districts, and no Van Buren Governor in Indiana. The Whig apparent majority in Vermont and Rhode Island is somewhat *too low, but not enough* to counterbalance the above. The actual Whig *majority in these nineteen* States is probably just about **100,000**, and the *Whig gain from 1836.* **126,000.** The seven remaining States are about *equally divided between* the two parties.]

*At the four first Elections, no discrimination was made between votes for President and Vice President; each Elector voting for two candidates, and the highest on the poll being President and the next Vice President.

†Under the Constitution as it then stood, there was no *choice* for President; the votes for Jefferson and Burr, the Democratic candidates, being equal. The House, after a protracted and most exciting struggle, elected Mr. Jefferson President; whereupon Burr became Vice President.

‡Mr. Ingersoll received only the Federal votes; Mr. Clinton those of New-York in addition.

‖Gov. Wm. Plumer, of N. H., voted for J. Q. Adams, who was not a candidate.

§South Carolina voted for Ex-Gov. Floyd of Va. and H. Lee of Boston. Pennsylvania voted for Jackson, but eschewed Van Buren and cast her vote for Wilkins. Vermont voted for Wirt and Ellmaker, (Anti-Masonic.)

¶Tennessee and Georgia voted for White and Tyler, Maryland for Harrison and Tyler; South Carolina for Mangum and Tyler: Massachusetts for Webster and Granger. Virginia for Van Buren and Judge Smith of Alabama. Col. R. M. Johnson having just half the votes for Vice President, the Senate proceeded to elect; whereupon Col. Johnson received 33 votes and Francis Granger 16.

*a*In the House of Representatives, Adams received the votes of 13 States, Jackson of 7, Crawford of 4.

TO THE PUBLIC.

The following pages have been prepared with all the attention to accuracy consistent with the imperfection of the materials attainable and the haste in which the work is necessarily compiled. It is not perfect, as will be found by the addition of several of the columns of County votes, which do not quite correspond with the official aggregates at the bottom; but we hazard little in the assertion that it is more correct than any similar work ever yet offered to the public, and sufficiently so for all practical purposes. There is an error of 20 votes in the First District of Louisiana, making the Whig majority by so much too large; but we cannot find the materials for its correction. There are some Counties deficient in the recent vote of Alabama, Illinois, and Missouri, which we cannot obtain. The vote even of New-Hampshire is not just what it should be, though we have written to its capital expressly for the Official Returns. Still, we believe there is no material variance from the actual results, except in Virginia and Illinois, where so much room was left for the exercise of individual judgement in determining what vote to adopt as a test, that it would have been easy to make a considerable difference in the result. We have endeavored to decide impartially, and to be guided, as far as possible, by general rules rather than to judge specially in each case what vote should be taken as the test. In short, we have done our best; and now we ask every friend who remarks an error in these pages to give us the means of correcting it in our next edition, which will be issued immediately after the October Elections.

New-York, Sept, 15, 1840.

P. S. Since the above was in type, we have received the complete Official Vote of New-Hampshire at the Elections of 1836, '38 and '40, and corrected our table accordingly, so that this Manual contains the first perfect returns from that State ever published.

* No party contest in '40, and the Congress vote of '39 is repeated in the column of '40.
† In these Counties the Congress vote of '39 was not a test, and the vote for President in '36 is repeated in the column of '40. ‡ This includes the votes on the back of the poll; the Whig candidate has 209 to 207 upon the face of it. ‖ The vote for Bayly (Ind.) and Cropper, (Whig)—not strictly party, § The vote for Senator. In the rest of the Counties, the vote for Delegates in 1840 is given. Of the votes cast in the Counties contested in 1840 Whigs had a large majority. In '36 lost by informality, 60 in Pocahontas, 316, in Floyd, in Monongalia—total 628: Van Buren 584; Whig 44.

* In these Counties the vote for 1840 is the average of all the candidates on each side. †In these Counties there was no contest, or we have no returns for 1840, and the vote for Governor is repeated in the columns of that year. ‡ Reported majorities, believed to be about correct. ‖ In those Counties we have taken the vote of Leary (V. B.) and Wilson (Whig) as the best test of party strength. § Round Grove precinct not included. In all the remaining Counties the vote for 1840 is taken from a table in the Register—the Van Buren State paper at Springfield, Ill.

☞ The next election for Members of Congress is postponed to 1841.

Gov. Carlin was elected in 1838 for a term of four years. The Legislature as now constituted serves for two years. It is divided as follows:

SENATE	Elected 1838	Van Buren	14	Whig	6
	" 1836	"	12	"	8
	Total	"	26	"	14
HOUSE	All elected in 1838	"	51	"	40
	Total in Joint Ballot.	"	87	"	44

Van Buren majority in Senate 12; House 11; Joint Ballot 23

This secures the election of a Van Buren Senator—the term of Hon. J. M. Robinson (V. B.) expiring with the XXVIth Congress. It will also devolve upon the present Legislature to divide the State into Congressional Districts under the apportionment of Members to be made according to the Census of 1840.

Aroostook, Franklin and Piscataquis are new Counties, and their votes and Representatives are counted with those from which they are taken, with which they still vote for Senators. There is probably no choice of Senators in Penobscot, and for two in Hancock and Washington. There was no choice for Representatives in 18 Districts, and new Elections must be had. We have followed the Whig accounts throughout in regard to this State, as they are not only more complete but appear less erroneous than those of the other party. Still, they must not be implicitly relied on.

ADVERTISEMENT.

The following pages have been compiled with much labor and patient research, yet we do not hope they will be found entirely exempt from errors. To avoid them wholly is impossible, even with the most anxious vigilance. Very often it becomes necessary to rest upon data of uncertain authority, or decide between conflicting statements; and sometimes even the Returns purporting to be Official, and which were originally transcripts from the actual records, are marred by the change of a figure in publication, and reach us essentially imperfect. We have endeavored by comparison, correction and revision, to render these more nearly perfect than any hitherto published.

The votes of a few Counties are missing from our tables for some of the Southern and Western States, by reason of the failure of the proper officers to return them. We believe that none which were correctly rendered at home are wanting here, while several missing from the Officials have been supplied.

The vote by Counties of GEORGIA for President had not been published when we passed the proper place for recording it. It is inserted on page 30.

The vote we give for ARKANSAS is that published as Official by the Governor; but returns from two or three Counties are wanting, which, the Governor subsequently stated, reduced the majority for Van Buren to 1,386; but he gave (so far as we have seen) no details.

Some readers have been perplexed by the circumstance that the vote for President and majority in some States are differently stated by different compilers; but the explanation is easy. The discrepancy is caused by the difference in the votes cast for different Electors on the same ticket. For instance, in Pennsylvania, at the late Election, Messrs. Ritner and Shulze, the Harrison Senatorial Electors, were *scratched* by a number of voters, and ran behind their colleagues. Some authorities have taken the highest candidate on each ticket, some the first named, and some have undertaken to average the whole number. We took a candidate from each who appeared to run clear and even, and gave the vote for him in each County and in the aggregate. The result is seen in its proper place. On an average of the whole of each ticket, Harrison's majority would be a few votes less.

New York, February, 1841.

* At the four first Elections, no discrimination was made between votes for President and Vice President; each Elector voting for two candidates, and the highest on the poll being President and the next Vice President.

† Under the Constitution as it then stood, there was no *choice* for President; the votes for Jefferson and Burr, the Democratic candidates, being equal. The House after a protracted and most exciting struggle, elected Mr. Jefferson President; whereupon Burr becam eVice President

‡ Mr. Ingersoll received only the Federal votes; Mr. Clinton those of New-York in addition.

* No party contest in '40, and the Congress vote of '39 is repeated in the column of '40. † In these Counties the Congress vote of '39 was not a test, and the vote for President in '36 is repeated in the column of '40. ‡ This includes the votes on the back of the poll; the Whig candidate has 209 to 207 upon the face of it. ‖ The vote for Bayly (Ind.) and Cropper, (Whig)—not strictly party, § The vote for Senator. In the rest of the Counties, the *vote for Delegates in 1840 is given.* Of the votes cast in the Counties contested in 1840 *the Whigs had a large majority.* In '36 lost by informality, 60 in Pocahontas, 216, in Floyd, *259 in Monongalia—total 628:* Van Buren 584; Whig 44.

* In these Counties the vote for 1840 is the average of all the candidates on each side. In these Counties there was no contest, or we have no returns for 1840, and the vote for Governor is repeated in the columns of that year. ‡ Reported majorities, believed to be about correct. ‖ In these Counties we have taken the vote of Leary (V. B.) and Wilson (Whig) as the best test of party strength. § Round Grove precinct not included. In all the remaining Counties the vote for 1840 is taken from a table in the Register—the Van Buren State paper at Springfield, Ill.

Districts.	Van Buren.	**Congress—1838.**	Whig.
I.	John Reynolds	7,882	Hogan	5,091
II.	Zadock Casey (Cons. V. B.)		no serious opposition	
III.	Stephen A. Douglas	18,337	John T. Stuart	18,405

☞ The next election for Members of Congress is postponed to 1841.

Gov. Carlin was elected in 1838 for a term of four years. The Legislature as now constituted serves for two years. It is divided as follows:

SENATE	Elected 1838	Van Buren	14	Whig	6
	" 1836	"	12	"	8
	Total	"	26	"	14
HOUSE	All elected in 1838	"	51	"	40
	Total in Joint Ballot.	"	87	"	44

Van Buren majority in Senate 12; House 11; Joint Ballot 23

This secures the election of a Van Buren Senator—the term of Hon. J. M. Robinson (V. B.) expiring with the XXVIth Congress. It will also devolve *upon the present Legislature* to divide the State into Congressional Districts under the apportionment of Members to be made according to the Census of 1840.
